Substances prohibited from being discharged to the sewerage system

Pursuant to Clause 6 of the Local Government (Water Services) Regulation 1999 the following substances are prohibited

from being discharged into sewers or drains:

- (a) Animal matter (including carcasses but not including human waste), wool, hair, grease, dust, ashes, cinders, soil, rubbish, filth, oil, salt, mud, sand, gravel, garbage, offal, vegetable or fruit parings, rags, house refuse, steam or solid matter;
- (b) Any flammable or explosive substance;
- (c) Waste liquid that contains a percentage of any substance, or waste liquid that is of a temperature, specified by the Council as being:
 - (i) Likely to endanger public health, public safety or public amenity or the environment, or
 - (ii) Damaging to, or liable to form compounds that may damage the Council's sewerage system or treatment works, or
 - (iii) Likely to injure employees engaged in the operation or maintenance of the Council's sewerage system or treatment works or the health of those employees;
- (d) Except in the case of a public drain or a council gutter - roof, rain, surface, seepage or ground water, unless specifically permitted (clause 137A of the Local Government (General) Regulation 2005. In addition to those mentioned in clause 6 of the Local Government (Water Services) Regulation 1999, the following substances are not permitted to be discharged into the sewerage system:
 - organochlorine weedicides, fungicides, pesticides, herbicides and substances of similar nature and/or wastes arising from the preparation of these substances;
 - organophosphate pesticides and/or wastes arising from the preparation of these substances;
 - any substances liable to produce noxious or poisonous vapours in the sewerage system;
 - organic solvents and mineral oils;
 - discharges from 'Bulk Fuel Depots';
 - natural or synthetic resins, plastic monomers, synthetic adhesives and rubber plastic emulsions;
 - chromate from cooling towers; and
 - waste that contains pollutants at concentrations which inhibit the sewage treatment processes - refer Australian Sewage Quality Management Guidelines, June 2012, WSAA.

The applicant should be aware that approval of this application does not constitute a guarantee of any future approval of a variation to the approval. This will be dependent on the available capacity of the sewerage system at that time and any future approval must not be assumed.

However, alerting Queanbeyan-Palerang Regional Council to the applicant's future plans and proposals may assist Queanbeyan-Palerang Regional Council in planning future sewerage management and/or infrastructure additions/modifications.
