QUEANBEYAN-PALERANG REGIONAL COUNCIL
ABN 95 933 070 982
257 Crawford Street (P.O. Box 90)
QUEANBEYAN NSW 2620

Attention: Mr Phil Hansen - Acting Director, Assets & Projects

Dear Mr Hansen,

ENVIRONMENT PROTECTION LICENCE No. 20852 QUEANBEYAN-PALERANG REGIONAL COUNCIL

I refer to the application dated 12-Oct-2016 for the issue of an Environment Protection Licence (EPL) under the Protection of the Environment Operations Act 1997 ('the Act') authorising QUEANBEYAN-PALERANG REGIONAL COUNCIL to undertake road construction at Ellerton Drive Extension Road Corridor, QUEANBEYAN EAST, NSW, 2620.

The Environment Protection Authority (EPA) has considered the matters set out in Section 45 of the Act when determining your application. You are advised that the EPA has approved the application. Environment Protection Licence Number 20852 is enclosed.

Annual Return Requirement

In accordance with Condition R1.5 of the EPL you must submit an Annual Return to the EPA no later than 60 days after the anniversary date of the licence (22 November). The Annual Return is a declaration in which you advise the EPA whether you complied or did not comply with the requirements of your licence. Where monitoring is required by your licence, you must enter a summary of the results in the Annual Return, using the table(s) provided. For licences subject to a load-based licence fee, the load fee must be calculated using the worksheets provided in the Annual Return.

You must also certify in your Annual Return the extent to which you have complied with the requirements of Section 66(6) of the Act that relate to the Publishing of Pollution Monitoring Data. All licensees who undertake pollution monitoring as part of a condition of their EPL, must publish that monitoring data. If you operate a website you must publish that monitoring data on the website. If you do not maintain a website then you must make the pollution monitoring data available when requested. For more information about the EPA's requirements for publishing pollution monitoring data, refer to EPA's website at http://www.epa.nsw.gov.au/legislation/20120263reqpubpmdata.htm

We are committed to assisting the licensed community to meet their annual reporting obligations. The EPA will send you a copy of the Annual Return documentation for your licence on your licence anniversary date to help ensure that they can be submitted by the due date. The first Annual Return will fall due 60 days after the first licence anniversary (22 November 2017). The Annual Return form can also be downloaded from the EPA’s Public Register using the Licence No. 20852 (see http://www.epa.nsw.gov.au/prpoeoapp/) or completed online via the EPA’s electronic portal E-Connect at http://www.epa.nsw.gov.au/profileapp/auth.
For further information on Annual Returns, please see the EPA’s website at: http://www.epa.nsw.gov.au/licensing/lbl/annualreturn.htm

Pollution Incident Response Management Plan

Under Section 153A of the Act all EPL holders must prepare a Pollution Incident Response Management Plan (PIRMP). In addition you must certify in your Annual Return, the extent to which you have complied with the requirements that relate to the preparation and maintenance of your PIRMP. For more information about the PIRMP requirements refer to the EPA’s website at http://www.epa.nsw.gov.au/legislation/20120227egpreppirmp.htm

Licence Fees

Annual licence administrative fees are due at the same time as the Annual Return (no later than 60 days after the licence anniversary date). A fee invoice will be sent to you with the Annual Return documents. Licence fees have been paid for the forthcoming licence period (22 November 2016 to 21 November 2017).

If you have any questions relating to the licence, fees or your load-based monitoring and reporting requirements please contact Julian Thompson on 6229 7002.

Yours sincerely

................................................
Julian Thompson

### DICTIONARY
Information about this licence

Dictionary
A definition of terms used in the licence can be found in the dictionary at the end of this licence.

Responsibilities of licensee
Separate to the requirements of this licence, general obligations of licensees are set out in the Protection of the Environment Operations Act 1997 ("the Act") and the Regulations made under the Act. These include obligations to:

- ensure persons associated with you comply with this licence, as set out in section 64 of the Act;
- control the pollution of waters and the pollution of air (see for example sections 120 - 132 of the Act);
- report incidents causing or threatening material environmental harm to the environment, as set out in Part 5.7 of the Act.

Variation of licence conditions
The licence holder can apply to vary the conditions of this licence. An application form for this purpose is available from the EPA.

The EPA may also vary the conditions of the licence at any time by written notice without an application being made.

Where a licence has been granted in relation to development which was assessed under the Environmental Planning and Assessment Act 1979 in accordance with the procedures applying to integrated development, the EPA may not impose conditions which are inconsistent with the development consent conditions until the licence is first reviewed under Part 3.6 of the Act.

Duration of licence
This licence will remain in force until the licence is surrendered by the licence holder or until it is suspended or revoked by the EPA or the Minister. A licence may only be surrendered with the written approval of the EPA.

Licence review
The Act requires that the EPA review your licence at least every 5 years after the issue of the licence, as set out in Part 3.6 and Schedule 5 of the Act. You will receive advance notice of the licence review.

Fees and annual return to be sent to the EPA
For each licence fee period you must pay:

- an administrative fee; and
- a load-based fee (if applicable).
The EPA publication "A Guide to Licensing" contains information about how to calculate your licence fees. The licence requires that an Annual Return, comprising a Statement of Compliance and a summary of any monitoring required by the licence (including the recording of complaints), be submitted to the EPA. The Annual Return must be submitted within 60 days after the end of each reporting period. See condition R1 regarding the Annual Return reporting requirements.

Usually the licence fee period is the same as the reporting period.

Transfer of licence

The licence holder can apply to transfer the licence to another person. An application form for this purpose is available from the EPA.

Public register and access to monitoring data

Part 9.5 of the Act requires the EPA to keep a public register of details and decisions of the EPA in relation to, for example:

- licence applications;
- licence conditions and variations;
- statements of compliance;
- load based licensing information; and
- load reduction agreements.

Under s320 of the Act application can be made to the EPA for access to monitoring data which has been submitted to the EPA by licensees.

This licence is issued to:

QUEANBEYAN-PALERANG REGIONAL COUNCIL

257 CRAWFORD STREET (P.O. BOX 90)
QUEANBEYAN NSW 2620

subject to the conditions which follow.
1 Administrative Conditions

A1 What the licence authorises and regulates
A1.1 This licence authorises the carrying out of the scheduled activities listed below at the premises specified in A2. The activities are listed according to their scheduled activity classification, fee-based activity classification and the scale of the operation.

Unless otherwise further restricted by a condition of this licence, the scale at which the activity is carried out must not exceed the maximum scale specified in this condition.

<table>

<td>re-routed</td>
</tr>
</tbody>
</table>

A1.2 This licence authorises the carrying out of the works listed as "Stage 1 Early Works" in the Licence Application, at the premises listed below in A2. Stage 1 Early Works is defined as: An early works program consisting of the installation of nest boxes, installation of temporary site security fencing, and the clearing of certain termite mounds and hollow bearing trees and associated vegetation. It also includes the relocation of utilities.

The road construction works listed as Stage 2 in the Licence application are not currently authorised by this licence. This includes the main civil works, major road and bridge construction works, and major clearing of the road corridor. These Stage 2 works need to be authorised by a future variation of the Licence prior to them being commenced.

A2 Premises or plant to which this licence applies
A2.1 The licence applies to the following premises:

A3 Information supplied to the EPA
A3.1 Works and activities must be carried out in accordance with the proposal contained in the licence.
application, except as expressly provided by a condition of this licence.

In this condition the reference to "the licence application" includes a reference to:
a) the applications for any licences (including former pollution control approvals) which this licence replaces under the Protection of the Environment Operations (Savings and Transitional) Regulation 1998; and
b) the licence information form provided by the licensee to the EPA to assist the EPA in connection with the issuing of this licence.

2 Discharges to Air and Water and Applications to Land

P1 Location of monitoring/discharge points and areas

P1.1 The following utilisation areas referred to in the table below are identified in this licence for the purposes of the monitoring and/or the setting of limits for any application of solids or liquids to the utilisation area.

3 Limit Conditions

L1 Pollution of waters

L1.1 Except as may be expressly provided in any other condition of this licence, the licensee must comply with section 120 of the Protection of the Environment Operations Act 1997.

L2 Hours of operation

L2.1 Standard construction hours

Unless otherwise specified by any other condition of this licence, all construction activities are:
a) restricted to between the hours of 7:00am and 6:00pm Monday to Friday;
b) restricted to between the hours of 8:00am and 1:00pm Saturday; and
c) not to be undertaken on Sundays or Public Holidays.

4 Operating Conditions

O1 Activities must be carried out in a competent manner

O1.1 Licensed activities must be carried out in a competent manner. This includes:
a) the processing, handling, movement and storage of materials and substances used to carry out the activity; and
b) the treatment, storage, processing, reprocessing, transport and disposal of waste generated by the activity.
O2 Maintenance of plant and equipment
O2.1 All plant and equipment installed at the premises or used in connection with the licensed activity:
   a) must be maintained in a proper and efficient condition; and
   b) must be operated in a proper and efficient manner.

O3 Dust
O3.1 Dust Control
   The licensee must implement all feasible and reasonable measures to prevent dust emissions from the
   premises.

O4 Other operating conditions
O4.1 During Stage 1 Early Works, construction related traffic must only access the premises from the following
   streets:
   1. Ellerton Drive for access to Area 1
   2. Severne Street for access to Area 2
   3. Lonergan Drive for access to Area 3
   4. Barracks Flat Drive and Old Cooma Road/Edwin Land Parkway intersection for access to Area 4

   * Note: Areas 1, 2, 3 and 4 of the premises are defined on Drawing 1 of the document ‘A Lump Sum
   Contract for the Selective Clearing of Trees and Destruction of Termite Mounds for Ellerton Drive

   During Stage 2 works, which are not yet authorised by this licence, construction access to the premises
   will be limited to Ellerton Drive and Old Cooma Rd/Edwin Land Parkway intersection access points and
   no access to the premises will be permitted using the Greenleigh neighbourhood streets.

O4.2 Prior to undertaking any Stage 1 construction work, including any access works or vegetation removal, the
   licensee must implement erosion and sediment control measures as detailed under Section 3 in the
   document ‘QPRC Contract 08/2017 Lump Sum Contract for the Selective Clearing of Trees and
   Destruction of Termite Mounds for Ellerton Drive Extension, Section B Volume 2 Technical Specifications’
   to prevent pollution of waters. The sediment controls must be inspected after every rain event and
   repaired if required.

5 Monitoring and Recording Conditions

M1 Monitoring records
M1.1 The results of any monitoring required to be conducted by this licence or a load calculation protocol must
   be recorded and retained as set out in this condition.
M1.2 All records required to be kept by this licence must be:
   a) in a legible form, or in a form that can readily be reduced to a legible form;
   b) kept for at least 4 years after the monitoring or event to which they relate took place; and
   c) produced in a legible form to any authorised officer of the EPA who asks to see them.

M1.3 The following records must be kept in respect of any samples required to be collected for the purposes of this licence:
   a) the date(s) on which the sample was taken;
   b) the time(s) at which the sample was collected;
   c) the point at which the sample was taken; and
   d) the name of the person who collected the sample.

M2 Recording of pollution complaints

M2.1 The licensee must keep a legible record of all complaints made to the licensee or any employee or agent of the licensee in relation to pollution arising from any activity to which this licence applies.

M2.2 The record must include details of the following:
   a) the date and time of the complaint;
   b) the method by which the complaint was made;
   c) any personal details of the complainant which were provided by the complainant or, if no such details were provided, a note to that effect;
   d) the nature of the complaint;
   e) the action taken by the licensee in relation to the complaint, including any follow-up contact with the complainant; and
   f) if no action was taken by the licensee, the reasons why no action was taken.

M2.3 The record of a complaint must be kept for at least 4 years after the complaint was made.

M2.4 The record must be produced to any authorised officer of the EPA who asks to see them.

M3 Telephone complaints line

M3.1 The licensee must operate during its operating hours a telephone complaints line for the purpose of receiving any complaints from members of the public in relation to activities conducted at the premises or by the vehicle or mobile plant, unless otherwise specified in the licence.

M3.2 The licensee must notify the public of the complaints line telephone number and the fact that it is a complaints line so that the impacted community knows how to make a complaint.

M3.3 The preceding two conditions do not apply until the day of the date of the issue of this licence.

6 Reporting Conditions
R1 Annual return documents

R1.1 The licensee must complete and supply to the EPA an Annual Return in the approved form comprising:
1. a Statement of Compliance,
2. a Monitoring and Complaints Summary,
3. a Statement of Compliance - Licence Conditions,
4. a Statement of Compliance - Load based Fee,
5. a Statement of Compliance - Requirement to Prepare Pollution Incident Response Management Plan,
6. a Statement of Compliance - Requirement to Publish Pollution Monitoring Data; and

At the end of each reporting period, the EPA will provide to the licensee a copy of the form that must be completed and returned to the EPA.

R1.2 An Annual Return must be prepared in respect of each reporting period, except as provided below.

Note: The term "reporting period" is defined in the dictionary at the end of this licence. Do not complete the Annual Return until after the end of the reporting period.

R1.3 Where this licence is transferred from the licensee to a new licensee:
    a) the transferring licensee must prepare an Annual Return for the period commencing on the first day of the reporting period and ending on the date the application for the transfer of the licence to the new licensee is granted; and
    b) the new licensee must prepare an Annual Return for the period commencing on the date the application for the transfer of the licence is granted and ending on the last day of the reporting period.

Note: An application to transfer a licence must be made in the approved form for this purpose.

R1.4 Where this licence is surrendered by the licensee or revoked by the EPA or Minister, the licensee must prepare an Annual Return in respect of the period commencing on the first day of the reporting period and ending on:
    a) in relation to the surrender of a licence - the date when notice in writing of approval of the surrender is given; or
    b) in relation to the revocation of the licence - the date from which notice revoking the licence operates.

R1.5 The Annual Return for the reporting period must be supplied to the EPA via eConnect EPA or by registered post not later than 60 days after the end of each reporting period or in the case of a transferring licence not later than 60 days after the date the transfer was granted (the 'due date').

R1.6 The licensee must retain a copy of the Annual Return supplied to the EPA for a period of at least 4 years after the Annual Return was due to be supplied to the EPA.

R1.7 Within the Annual Return, the Statements of Compliance must be certified and the Monitoring and Complaints Summary must be signed by:
    a) the licence holder; or
    b) by a person approved in writing by the EPA to sign on behalf of the licence holder.

R2 Notification of environmental harm
R2.1 Notifications must be made by telephoning the Environment Line service on 131 555.

Note: The licensee or its employees must notify all relevant authorities of incidents causing or threatening material harm to the environment immediately after the person becomes aware of the incident in accordance with the requirements of Part 5.7 of the Act.

R2.2 The licensee must provide written details of the notification to the EPA within 7 days of the date on which the incident occurred.

R3 Written report
R3.1 Where an authorised officer of the EPA suspects on reasonable grounds that:
   a) where this licence applies to premises, an event has occurred at the premises; or
   b) where this licence applies to vehicles or mobile plant, an event has occurred in connection with the carrying out of the activities authorised by this licence, and the event has caused, is causing or is likely to cause material harm to the environment (whether the harm occurs on or off premises to which the licence applies), the authorised officer may request a written report of the event.

R3.2 The licensee must make all reasonable inquiries in relation to the event and supply the report to the EPA within such time as may be specified in the request.

R3.3 The request may require a report which includes any or all of the following information:
   a) the cause, time and duration of the event;
   b) the type, volume and concentration of every pollutant discharged as a result of the event;
   c) the name, address and business hours telephone number of employees or agents of the licensee, or a specified class of them, who witnessed the event;
   d) the name, address and business hours telephone number of every other person (of whom the licensee is aware) who witnessed the event, unless the licensee has been unable to obtain that information after making reasonable effort;
   e) action taken by the licensee in relation to the event, including any follow-up contact with any complainants;
   f) details of any measure taken or proposed to be taken to prevent or mitigate against a recurrence of such an event; and
   g) any other relevant matters.

R3.4 The EPA may make a written request for further details in relation to any of the above matters if it is not satisfied with the report provided by the licensee. The licensee must provide such further details to the EPA within the time specified in the request.

7 General Conditions

G1 Copy of licence kept at the premises or plant
G1.1 A copy of this licence must be kept at the premises to which the licence applies.

G1.2 The licence must be produced to any authorised officer of the EPA who asks to see it.
G1.3 The licence must be available for inspection by any employee or agent of the licensee working at the premises.
