## Ellerton Drive, East Queanbeyan – Notification of temporary road closure from Wednesday 8 May

Roads and Maritime Services is continuing work on the Ellerton Drive extension project, which includes upgrading the existing section of Ellerton Drive.

As part of this work, the road surface between the Mowatt Street/ Old Sydney Road roundabout and the project site gates will be upgraded. The new road surface will help to reduce traffic noise, increase road user safety and improve water runoff.

This work will be carried out for about **three months** from **Wednesday 8 May** until **August**, weather permitting. Our working hours will be between **7am** and **6pm** from **Monday to Friday** and **8am to 1pm** on **Saturday**.

To ensure the safety of motorists and the community, **this section of Ellerton Drive will be closed to all traffic 24 hours a day, seven days a week while this work is carried out and detours will be in place.**

### How will the work affect you?

Heavy plant will be operating in the area to remove the existing layer of road pavement and lay the upgraded surface. This machinery will generate noise and dust and asphaltting may generate an odour.

To ensure safety, pedestrian access on the road verge will be intermittent during this period.

We will continue to minimise the impact of works on residents and road users.

### Traffic impacts

Detours will be in place during the temporary road closure. Residents and motorists accessing Tennyson Drive should detour via Mowatt Street while this work is carried out.

Access to the Plymouth Brethren Christian Church will be via existing Ellerton Drive. Church patrons are asked to follow the directions of signage.

We have provided a map overleaf to show the road closure and restricted access areas.

Motorists are advised to drive to the conditions and follow directions, signs and traffic controllers.

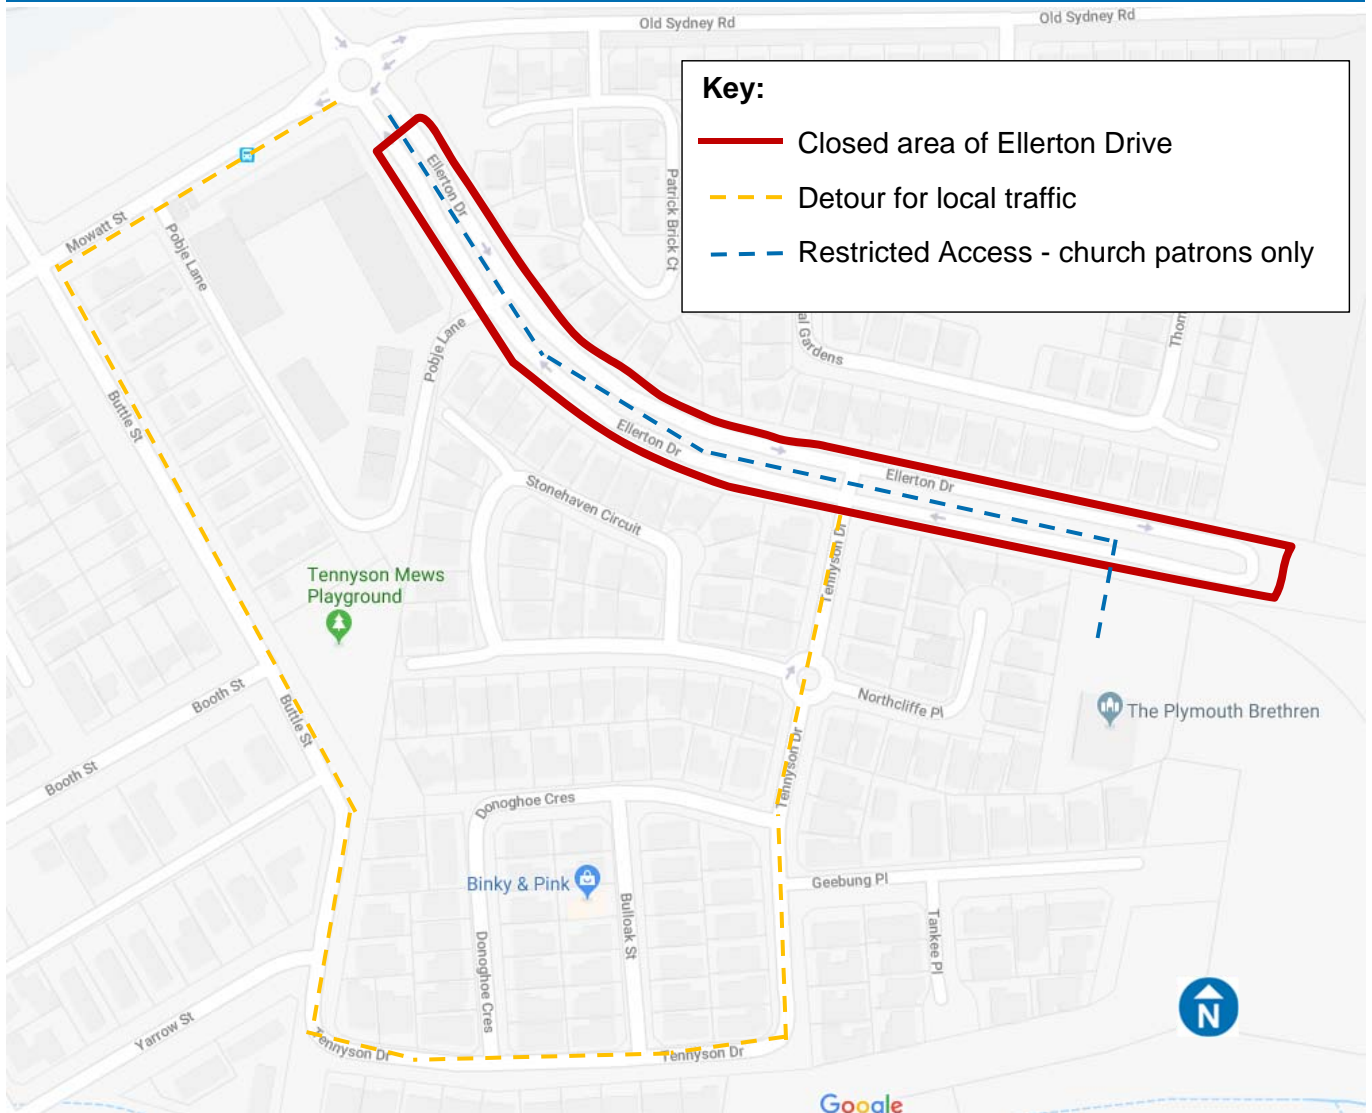

**Improving  
traffic flow**

**Better and more  
reliable trips**  
for people, business and freight
