Public Art Policy

1. OUTCOMES

- 1.1 Queanbeyan-Palerang Regional Council (QPRC) is committed to the development of a tolerant, diverse and rich natural and cultural heritage.
- 1.2 The rationale for having in place a public art policy is:
 - (a) Council supports Public Art in the region, and believes in building a sense of place and local identity through appropriate and high quality art pieces.
 - (b) Public Art can enhance public spaces by reflecting local stories, community interests and themes.
 - (c) Public Art can be a local attraction which may result in strong economic benefit to the region.
 - (d) Public Art can also be a medium which grows community engagement, culture, and identity.
 - (e) Public Art is a visible consequence of community 'place-making'.
- 1.3 As the most visible and accessible art form, public art plays an important role in contributing to the life of the region and as such the key purpose of this policy is to integrate public art into the fabric of the region and to enrich the public domain.

2. POLICY

- 2.1 This policy guides the development of public art within the Queanbeyan-Palerang Local Government Area which also covers the acquisition, commissioning, placement, management, maintenance and decommissioning of public art work within the region.

3. SCOPE OF THE POLICY

- 3.1 This policy will guide and form the criteria for assessment of all public art:
 - (a) commissioned and managed by Council
 - (b) commissioned or developed by associations, property developers, businesses and individuals or groups within the community in partnership with the Council.
 - (c) donated or commissioned by external bodies (including government) for the benefit of the community.
- 3.2 This policy is supported by the 'Implementation Guidelines for Public Art' developed by the QPRC internal Public Art Working Party.
- 3.3 Unapproved graffiti, signage and art pieces on private property are **not** considered 'public art' and are not covered by this policy.
