

Public meeting for the DRAFT EIA/EA treatment plant in accordance with the requirements of the NEMA Act 2002 and the POEA Act 1997

Table with 2 columns: Document Name, Version, and Date. Includes documents like 'EIA/EA Report', 'Public Meeting Report', etc.

Condition M2 - Requirement to monitor concentration of pollutants discharged (EPA Identification point 1 - Discharge point to Molonglo River - Quarterly intervals)

Table showing compliance status for various pollutants (Ammonia, Nitrate, etc.) at EPA Identification point 1. Columns include pollutant name, unit, and compliance status (e.g., 'Compliant').

Condition M2 - Requirement to monitor environmental conditions (EPA Identification points 2 & 3 - 500 metres upstream / downstream - Quarterly intervals)

Table showing compliance status for environmental conditions (Temperature, Dissolved Oxygen, etc.) at EPA Identification points 2 and 3. Columns include parameter name, unit, and compliance status.

Condition M6 - Requirement to monitor volume (EPA Identification point 2 - Inlet works)

Large table showing compliance status for volume monitoring at EPA Identification point 2. Includes a legend for 'Inflow daily limit (m3)' and a detailed grid of compliance data for various flow rates and dates.
