Palerang Council Pricing Policy

Section 404 of the Local Government Act requires Council to include in its Operational Plan, a Statement of the Council's Pricing Policy with respect to the goods and services provided by it.

The Schedule of Fees and Charges is reviewed on an annual basis as part of the Operational Plan process with the view of optimising the revenue base whilst at the same time attempting to ensure that the level of our fees and charges are fair and equitable for stakeholders using our services.

When setting its level of fees and charges, consideration is given to the nature of the service and any community service obligation as well as wider policy objectives such as equity and social justice considerations.

The purpose of a Pricing Policy is to explain the rationale behind each fee and charge set out in the Schedule of Fees and Charges.

The Pricing Policy is made up of a number of Pricing Principles and the Pricing Basis used for setting the level of the fee or charge.

Pricing Principle

All goods and services provided should have an identified Pricing Principle which is a simple statement that clarifies the philosophy of the goods and services and the reasoning for the level of charges set.

Pricing Basis

This is the method by which the fee or charge is determined and it sets the level of cost recovery. The basis used depends on the Pricing Principle chosen.

Council's Pricing Policy provides transparency so that stakeholders can clearly understand the basis of the Fees and Charges set.

The Pricing Principle and Pricing Basis are disclosed in respect of each fee and charge listed in the Schedule of Fees and Charges.

The following is a list of Pricing Principles and Pricing Basis.

Palerang Council Pricing Principles and Pricing Basis

| Ref | Pricing Principle | Pricing Basis |
|----------|---|------------------------|
| A | Public Good | |
| | Service provides a broad community benefit. Inconceivable or impractical to charge for service on a user basis | Zero Cost Recovery |
| B | Practical Constraint | |
| | Service is a minor part of the overall operation of the Council, or the potential for revenue collection is so minor as to be outweighed by the costs of collection. | Zero Cost Recovery |
| C | Shared Benefit | |
| | Benefits from provision of the service accrue to the community as whole as well as individual users (Community Service Obligation). | Partial Cost Recovery |
| D | Stimulus | |
| | A stimulus to the demand for the service is required. In the short term, only part of the cost of the service is to be recovered. | Partial Cost Recovery |
| E | Evasion | |
| | Charging prices to recover full cost may result in widespread evasion. | Partial Cost Recovery |
| F | Amended - Palerang Council - 7 November 2013 | |
| | The service is targeted to low income users. | Partial Cost Recovery |
| G | Economic/Social/Community Welfare | |
| | Service promotes or encourages local economic or social activity | Partial Cost Recovery |
| H | Private Good | |
| | Service benefits particular users, making a contribution to their individual income, welfare or profits, without any broader benefits to the community. | Full Cost Recovery |
| I | Monopoly | |
| | Council has a monopoly over provision of the service and there is no community service or equity obligation. | Full Cost Recovery |
| J | Development | |
| | Fee set will enable Council to develop and maintain a service. | Full Cost Recovery |
| K | Contribution | |
| | Charges levied to compensate community for an increase in demand for service or facilities as a consequence of a development proposal. | Full Cost Recovery |
| L | Regulatory : Non-Fixed | |
| | Fee charges to cover costs incurred by legislative requirements where no community service obligation exists. | Full Cost Recovery |
| M | Regulatory : Fixed | |
| | Fee fixed by legislation. | Regulatory |
| N | Market | |
| | Service provided is in competition with that provided by another council or agency (private or public) and there is pressure to set a price which will attract adequate usage of the service. | Reference Pricing |
| O | In-House | |
| | Service provided predominantly for Council use but sale to external markets may defray costs. | Reference Pricing |
| P | Entrepreneurial | |
| | The service is a profit making activity and the price paid by users should recover an amount greater than the full cost of providing that service. | Rate of Return Pricing |
| Q | Penalty | |
| | Fee charge is greater than cost of the service so as to act as a dis-incentive. | Rate of Return Pricing |
| R | Utility | |
| | Fee charges for possession, occupation or enjoyment of Council Land, Public Land and Air Space by Gas, Electricity, Telecommunications and Water Utilities | Rate of Return Pricing |
